INDEPENDENT AUDITORS' REPORT

To The Board of Education of the
Fallsburg Central School District
Fallsburg, New York

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Fallsburg Central School District, New York, as of and for the year ended June 30, 2020, which collectively comprise the District's basic financial statements as listed in the table of contents, and the notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Fallsburg Central School District, New York, as of June 30, 2020, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, on pages 4 through 13 and 55 through 60, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who consider it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fallsburg Central School District, New York's financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The prior year summarized comparative information has been derived from the District's June 30, 2019 financial statements and, in our report dated October 1, 2019, we expressed an unmodified opinion on those financial statements.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2020 on our consideration of the Fallsburg Central School District, New York's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Fallsburg Central School District, New York's internal control over financial reporting and compliance.

**FALLSBURG CENTRAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2020**

As management of the Fallsburg Central School District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. The discussion and analysis of the financial performance provides an overall review of the financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to review the District's financial performance as a whole; readers should also review the financial statements, notes to the financial statements and related audit information to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

- The beginning unrestricted cash for the District was \$4,976,949. The ending unrestricted cash for the District was \$10,288,548. The increase in cash is due to short-term borrowings for the capital project and normal fluctuations of the business cycle.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements composed of the Statement of Net Position and Statement of Activities are designed to provide information about the District's finances as a whole. The statements include all assets and revenues and expenditures and are presented on the accrual basis of accounting that is similar to the method used by in private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other non-financial factors that are indicators include changes in enrollment, the property tax base, and the conditions of school buildings and other facilities within the District.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation and operation of non-instructional services. Fixed assets and related debt is also supported by taxes and intergovernmental revenues. The business type activities of the District include the Food Service and Day Care operations. These activities operate on a fee for goods or services provided.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all New York public school districts. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The Statement of Net Position provides a summary of all the assets and liabilities in the District, governmental and business-type. Net position for the year ended June 30, 2020 was \$(54,497,443) a decrease of \$9,823,457 from the balance of \$(44,673,986) for the year ended June 30, 2019. The decrease is primarily due to the recognition of the district's entire estimated Other Post Retirement Benefit.

The following schedule is a summary of the District's net position for the years ended June 30, 2020 and 2019:

GOVERNMENTAL FUND FINANCIAL ANALYSIS

The governmental funds of the District reported combined fund balances at June 30, 2020 of \$1,339,373, which is \$7,211,592 less than the June 30, 2019 ending fund balance of \$8,550,965.

General Fund Revenue/Expenditures

The General Fund had total revenues of \$43,396,191, which primarily consisted of real property taxes and other tax items, state aid payments and the refund of the previous year's BOCES expenditures. Excluding interfund transfers of \$2,835,534, the General Fund expenditures were \$40,266,372. Revenues increased by \$1,657,501 and expenditures increased by \$30,391 over the year ending June 30, 2019. Revenues were increased by the District's state aid allocation. Expenditures increased in the areas of salaries and benefits for staff.

The General Fund had an increase in fund balance of \$294,285. The District has been budgeting and spending conservatively over the past few years based on economic conditions and needs of the District. In the 2019-20 school year, the District received additional state aid which increased revenues. The General Fund has a total of \$6,462,733 restricted for future expenditures, which is made up of \$39,582 restricted for tax certiorari payments; \$104,580 restricted for unemployment insurance; \$270,183 for future employee benefit accrued liabilities; \$599,915 restricted for workers' compensation expenses; \$437,209 restricted for repairs; and \$5,011,264 restricted for a future capital project at June 30, 2020. In addition, the District has encumbered \$1,233,212 in budgeted expenses that will be rolled over to the 2020-2021 fiscal year.

The following charts present a summary of General Fund revenues (Chart 1) and expenses (Chart 2) for the fiscal year ended June 30, 2020

Chart 1: General Fund Actual Revenues

The majority of revenue was derived from Real Property Taxes (46%) and State Aid (52%). The remaining 2% was derived from local sources including interest earnings, insurance recoveries and other miscellaneous sources.

Chart 2: General Fund Actual Expenditures

Instructional costs are (55%) of the General Fund expenditures, exclusive of interfund transfers. These costs include instructional staff salaries, contractual costs and materials. Also included are expenditures for attendance, guidance counselor, health, psychological testing, speech, and hearing and vision services. The general support (9%) includes tax collection fees, superintendent, principals, secretaries, and bookkeepers and staff salaries, and office expenditures. Also included are plant operations and maintenance cost including staff salaries, utilities, property insurance, building and equipment maintenance, and supplies. Employee benefits (27%) Include retirement contributions, Social Security and Medicare contributions, health, dental, and disability insurance payments. Student transportation (9%) costs which include contractual cost for transporting students to and from school, field trips, sporting events, and late buses. Community services represent less than

1% of expenditures and include the school to work program, community program development, and the childcare program.

Special Aid Fund Revenue/Expenditures

The majority of revenues were derived from federal sources, and the majority of expenditures were spent on instructional costs.

Debt Service Fund Revenue/Expenditures

Funds are transferred from the General Fund to the Debt Service Fund where bond interest and principal expenditures are made. During the year ended June 30, 2020, \$312,429 was expended on interest and \$766,937 on principal from the Debt Service Fund. The fund balance at June 30, 2020 was \$347,310, a decrease of \$82,533 from the previous year.

Capital Projects Fund Revenue/Expenditures

This fund is used for building projects at the Benjamin Cosor Elementary School and the Jr/Sr High School. The District transferred \$1,612,286 from the General Fund to the Capital Fund to fund ongoing projects. During the year ended June 30, 2020, \$9,321,430 was expended on capital construction for the projected that was approved by May 2017. The fund balance deficit at June 30, 2020 was \$(10,395,149), a decrease in fund balance of \$7,499,144 from the previous year.

Food Service Revenue/Expenditures

The majority of the revenues are from federal sources (94%), state sources (5%), and food sales (1%). The decrease in food sales and in increase in federal and state sources is due to the district participating in the Community Eligibility Provision, where every student is provided breakfast and lunch without cost and the long-term closure of school due to COVID-19. The expenditures in this fund include staff salaries and benefits, supplies, and food costs. The fund balance at June 30, 2020 was \$578,901, an increase of \$75,800 from the previous year. The increase is due to additional revenue from the Community Eligibility Provision.

BUDGETARY IMPLICATIONS

The New York State public school fiscal year is July 1-June 30; other programs, i.e. some federal, operate on a different fiscal calendar, but are reflected in the District's overall financial statements

General Fund Budget

During the fiscal year, the Board of Education authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year, and is permitted by state law. A schedule showing the District's

original and final budget amounts compared with amounts actually paid and received is provided in the audited financial statements.

The District applies for federal, state, and local grants and these grants cannot always be anticipated in the budgeting process. Budgeted expenditures and other financing uses also increased by this same amount to compensate for the additional approved grants. Transfers between specific categories of expenditures/financing uses occur during the year to recognize changes in priorities since the original adoption of the budget.

Capital Assets

At the end of fiscal year 2020, the District had \$54,979,623 invested in land, buildings, machinery and equipment and vehicles, net of \$21,122,295 in accumulated depreciation.

Capital Assets (Net of Depreciation)

Vehicles	38,648	57,142
Total	33,857,328	25,264,966

Long Term Debt

At June 30, 2020, the School District had \$141,049,224 of outstanding long-term debt.

ECONOMIC FACTORS AND FUTURE BUDGETS

The District's management is cautious about the financial future of the District. The current financial slowdown due to the COVID-19 Pandemic will have a serious effect on New York State's ability to raise revenues and could affect the district's state aid payments. The enactment of the State Aid cap and the Property Tax Levy cap has restricted the ability of the District to increase revenues. Currently, the District has sufficient reserves to continue to operate without a dramatic impact on the educational programs for its students in the near-term future. The reserves, however, are a finite source of revenue; once they are expended, the District will have to make significant reductions in the educational programs.

New York State instituted a State Aid cap where increases in State Aid paid to school districts will be limited to the lesser of the growth in personal income or 4%. Additionally, New York State enacted a Tax Levy cap where local governments, including school districts, will have limited abilities to increase the amount levied for real property taxes. For school districts, any increase in the tax levy over the State mandated Tax Cap would have to be approved by a super-majority, a 60% margin, in an election.

The District will attempt to contain expenditures within its control; however, the majority of the costs in running the District, i.e. energy costs, transportation, insurance, employee benefits, and contractual amounts, are beyond the control of District administration.

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year.

Depreciation Expenses	(756,862)		
Capital Outlay	<u>9,389,197</u>	8,632,335	1,476,498

Repayments of principal on long term debt are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.

FALLSBURG CENTRAL SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fallsburg Central School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Financial Reporting Entity

The Fallsburg Central School District is governed by the Education Law and other laws of the State of New York. The governing body is the Board of Education. The scope of activities included within the accompanying financial statements are those transactions which comprise School District operations, and are governed by, or significantly influenced by, the Board of Education.

Essentially, the primary function of the School District is to provide education for pupils. Services such as transportation of pupils, administration, finance, and plant maintenance support the primary function.

The financial reporting entity includes all funds, account groups, functions and organizations over which the School District officials exercise oversight responsibility. Oversight responsibility is determined on the basis of the financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters.

1. Included in the Reporting Entity

Based on the foregoing criteria and the significant factors presented below, the following organizations, functions or activities are included in the reporting entity:

a. The Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the Fallsburg Central School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the School District with respect to its financial transactions, and the designation of student management. The cash balances are reported in the Agency Fund of the School District. Separate audited general purpose financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the School District's business office.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Joint Venture

The Fallsburg Central School District is one of the eight component school districts in the Sullivan County Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of School Districts in a geographic area that share planning, services, and programs which provide educational and support activities.

BOCES are organized under Section 1950 of the Education Law. A BOCES Board is considered a corporate body. All BOCES property is held by the BOCES Board as a corporation (Section 1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under Section 119-n(a) of the General Municipal Law.

A BOCES budget is comprised of separate budgets for administrative, program and capital costs. Each component school district's share of administrative and capital costs is determined by resident public school district's enrollment as defined in Education Law Section 1950(4)(b)(7).

There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component School Districts pay tuition or a service fee for programs in which its students participate. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of Section 1950 of the Education Law.

C. Basis of Presentation

1. District-wide statements:

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants.

FALLSBURG CENTRAL SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operation or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund financial statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds each displayed in a separate column. The District reports the following major Governmental Funds:

a. General Fund

The General Fund is the principal operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund.

b. Special Revenue Fund

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts, or major capital projects) that are legally restricted to expenditure for specified purposes. Special revenue funds include the following funds:

1. Special Aid Fund – used to account for special operating projects or programs supported in whole, or in part, with federal funds or state or local grants.
2. School Lunch Fund – used to account for transactions of the School District lunch, breakfast, and milk programs.

c. Capital Projects Fund

The Capital Projects Fund is used to account for and report financial resources to be used for the acquisition, construction or renovation of major capital facilities or equipment.

FALLSBURG CENTRAL SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District reports the following non-major governmental funds:

a. Debt Service Fund

The Debt Service Fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities.

Additionally, the District reports the following fund type:

a. Fiduciary Fund

This fund is used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used.

Private Purpose Trust Fund

These funds are used to account for trust arrangements in which principal and income benefit annual third party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.

Agency Fund

These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds and for payroll or employee withholding.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting/Measurement Focus

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within one year after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E. Property Taxes

1. Calendar

Real property taxes are levied annually by the Board of Education no later than September 1st, and became a lien on September 1st. Taxes are collected during the period commencing September 1st and ending November 4th.

2. Enforcement

Uncollected real property taxes are subsequently enforced by the Counties of Sullivan and Ulster. An amount representing uncollected real property taxes transmitted to the Counties for enforcement is paid by the Counties to the School District no later than the forthcoming April 1st.

F. **Budgetary Procedures And Budgetary Accounting**

1. **Budget Policies**

The budget policies are as follows:

- a. The School District administration prepares a proposed budget for approval by the Board of Education for the following governmental fund types:

I. General Fund

- b. The proposed appropriation budget for the General Fund is approved by the voters within the District.
- c. Appropriations are adopted at the program level.
- d. Appropriations established by adoption of the budget constitute a limitation on expenditures and encumbrances which may be incurred. Appropriations lapse at the fiscal year end. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need which exists which was not determined at the time the budget was adopted. There were no supplemental appropriations occurred during the year.

2. **Encumbrances**

Encumbrances accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded for budgetary control purposes to reserve that portion of the applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as assigned fund balance since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

3. **Budget Basis of Accounting**

Budgets are adopted annually on a basis consistent with generally accepted accounting principles. Appropriations authorized for the current year are increased by the amount of encumbrances carried forward from the prior year.

G. Cash and Cash Equivalents

For financial statement purposes, the District considers all highly liquid investments of three months or less as cash equivalents.

H. Inventory

Inventories of food and/or supplies in the School Lunch Fund are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at stated value, which approximates market. Purchases of inventory items in other funds are recorded as expenditures at the time of purchase.

I. Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would be immaterial.

J. Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their acquisition value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The School District does not possess any infrastructure. The capitalization threshold used by the District is \$5,000.

All reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>ASSET CLASS</u>	<u>ESTIMATED USEFUL LIVES</u>
School Buildings	50
Site Improvements	20
Furniture & Equipment	5-20

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Unearned Revenue

Unearned revenues arise when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when sources are received by the School District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the School District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recognized.

L. Vested Employee Benefits

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods. Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, employees may receive a payment based on unused accumulated sick leave, based on contractual provisions.

Consistent with GASB Statement 16, Accounting for Compensated Absences, an accrual for accumulated sick leave is included in the compensated absences liability at year-end. The compensated absences liability is calculated on the pay rates in effect at year-end.

For the District-wide Statements, the current portion is the amount estimated to be used in the following year, in accordance with GAAP. For the governmental funds, in the fund financial statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System. In addition to providing pension benefits, the District provides health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the District's employees may become eligible for these benefits if they reach retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance in the fund financial statements by recording its share of insurance premiums as an expenditure in the year paid. In the District-wide statements, the liability is reported at actuarially calculated amounts (See Note 11).

M. **Interfund Activity**

The amounts reported on the Statement of Net Position for due to and due from other funds represents amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the individual fund balances at year-end is provided subsequently in these Notes.

N. **Equity Classifications**

In the District-wide statements there are three classes of net position:

Net investment in capital assets – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets.

Restricted – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted – reports all other net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

Order of Use of Net Position:

When an expense is incurred for which both restricted and unrestricted resources are available, the Board will assess the current financial condition of the District and determine which classification of net position will be charged.

In the fund basis statements there are five classifications of fund balance:

Non-spendable – includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes the inventory recorded in the School Lunch Fund of \$37,689.

Restricted – includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The District has established the following restricted fund balances:

Tax Certiorari

Used to accumulate funds to pay judgements and claims anticipated from tax certiorari proceedings. Any excess monies must be returned to the General Fund on or before the first day of the fourth fiscal year after the deposit of the monies. This reserve is accounted for in the General Fund.

Unemployment Insurance

Used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. This reserve is accounted for in the General Fund.

Employee Benefit Accrued Liability

Used to reserve funds for the payment of any accrued employee benefit due to an employee upon termination. The reserve is established by a majority vote of the Board of Education and is funded by budgetary appropriations and such other funds that may be legally appropriated. This reserve is accounted for in the General Fund.

Workers' Compensation

Used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the General Fund.

Capital

Used to pay the cost of any object or purpose for which bonds may be issued. Voter authorization is required for both establishment of the reserve and payments from the reserve. This reserve is accounted for in the General Fund.

Repair

Used to pay the cost of repairs to capital improvements or equipment. The Board of Education may establish the reserve by majority vote. Voter approval is required to fund the reserve and expenditures may only be made after a public hearing. This reserve is accounted for in the General Fund.

Committed – includes amounts that can only be used for a specific purpose pursuant to constraints imposed by formal action of the District's highest level of decision making authority before the end of the fiscal year, and requires the same level of formal action to remove the constraint. The Board of Education is the decision making authority that can, by resolution prior to the end of the fiscal year, commit fund balance. The District has no committed fund balances as of June 30, 2020.

Assigned – includes amounts that are subject to a purpose constraint that represents an intended use established by the government's highest level of decision making authority, or by their designated official. The purpose of the assignment must be narrower than the purpose of the General Fund, and in funds other than the General Fund, assigned fund balance represents the residual amount of fund balance. Assigned fund balance generally includes encumbrances in the General Fund and appropriated fund balance. The Board of Education is the decision making authority that can, by resolution, assign fund balance. The District reported encumbrances of \$1,233,212 as assigned fund balance in the General Fund as of June 30, 2020.

Unassigned – represents the residual classification for the General Fund, and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification should be used only to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the district's General Fund budget for the ensuing fiscal year. Non-spendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

Order of Use of Fund Balance:

When resources are available from multiple fund balance classifications, the Board will assess the current financial condition of the District and then determine the order of application of expenditures to which fund balance classification will be charged.

O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

P. New Accounting Standards

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2020, the District implemented the following new standards issued by GASB:

GASB 95 – Postponement of the Effective Dates of Certain Authoritative Guidance.

Q. Future Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following standard that will become effective in future fiscal years:

GASB 84 – Fiduciary Activities, effective for the year ending June 30, 2021.

GASB 87 – Leases, effective for the year ending June 30, 2022.

GASB 89 – Accounting for Interest Cost Incurred Before the End of a Construction Period, effective for the year ending June 30, 2022.

GASB 90 – Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61, effective for the year ending June 30, 2021.

GASB 91 – Conduit Debt Obligations, effective for the year ending June 30, 2023.

GASB 92 – Omnibus, effective for the year ending June 30, 2022.

The District will evaluate the impact of each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

R. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has three items that qualify for reporting in this category. The first item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is the District contributions to the pension systems (TRS and ERS Systems) and OPEB subsequent to the measurement date. The third item relates to OPEB reporting in the district-wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience. The District reports \$9,064,451 in deferred outflows of resources related to pensions and \$48,676,916 in deferred outflows of resources related to the Total OPEB Liability as of June 30, 2020.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The first item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability (ERS System) and difference during the measurement periods between the District's contributions and its proportionate share of total contributions to the pension system not included in pension expense. The second item is related to OPEB reported in the district-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs. The District reports \$3,426,621 in deferred inflows of resources related to pensions and \$3,061,263 in deferred inflows of resources related to the Total OPEB Liability as of June 30, 2020.

The reporting of deferred outflows of resources and deferred inflows of resources related to pensions resulted in a net increase of \$5,637,830 to unrestricted net position as of June 30, 2020.

The reporting of deferred outflows of resources and deferred inflows of resources related to the Total OPEB Liability resulted in a net increase of \$45,615,653 to unrestricted net position as of June 30, 2020.

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL
FUND STATEMENTS AND DISTRICT-WIDE STATEMENT

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-wide statements, certain financial transactions are treated differently. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds. These differences are reconciled in the financial statements.

1. Total fund balances of governmental funds vs. net position of governmental activities:

Total fund balances of the District's governmental funds differs from "net position" of governmental activities reported in the Statement of Net Position. The difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund balance sheet.

2. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities:

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories:

- a. Long-term revenue differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities report revenues when earned.

Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

- b. Capital related differences:

Capital related differences include the differences between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.

FALLSBURG CENTRAL SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL
FUND STATEMENTS AND DISTRICT-WIDE STATEMENT (continued)

c. Long-term debt transaction differences:

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-wide statements, certain financial transactions are treated differently. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds. These differences are reconciled in the financial statements.

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Fund Balance

The District's unassigned fund balance in the General Fund is in excess of the amount permitted by law. New York State Law limits the unassigned fund balance to 4% of the ensuing year's budget.

The Capital Projects Fund had a deficit unassigned fund balance of \$10,395,149 as of June 30, 2020. The deficit was caused by the accounting treatment of bond anticipation notes and will be eliminated when permanent financing is put in place.

NOTE 4 – PARTICIPATION IN BOCES

During the year ended June 30, 2020, the Fallsburg Central School District was billed \$5,924,090 for BOCES administrative and program costs. General purpose financial statements for Sullivan County BOCES are available from the BOCES' administrative office at 15 Sullivan Avenue, Suite 1, Liberty, NY 12754.

The School District's share of BOCES income amounted to \$1,580,673.

NOTE 5 – CASH AND INVESTMENTS

The Fallsburg Central School District investment policies are governed by State statutes. In addition the District has its own written investment policy. District monies must be deposited in FDIC-Insured commercial banks or trust companies located within the State. The Treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for time deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of New York State and states other than New York and their municipalities and school districts.

The District's aggregate cash balances include balances not covered by depository insurance at year end, collateralized as follows:

Collateralized with securities held by the pledging financial institution, or its trust department, but not in the District's name. \$ 19,020,641

NOTE 9 – LIABILITIES

A. Pension Plans and Post-Employment Benefits

1. General Information

The Fallsburg Central School District participates in New York State and Local Employee's Retirement System (ERS), and the New York State Teachers' Retirement System (TRS). These Systems are cost sharing multiple employer, public employee retirement systems.

FALLSBURG CENTRAL SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 9 – LIABILITIES (Continued)

The Systems offer a wide range of plans and benefits which are related to years of service and final average salary, vesting of retirement benefits, death and disability.

2. Plan Descriptions

a. Teachers' Retirement System (TRS)

As an employer, you make contributions to the NYS Teachers' Retirement System, a cost sharing, multiple employer defined benefit pension plan administered by the NYS Teachers' Retirement Board. The System provides retirement, disability, withdrawal and death benefits to plan members and beneficiaries as authorized by the Education Law and Retirement and Social Security Law of the State of New York.

The System issues a publicly available financial report that contains financial statements and required supplementary information for the System. The report may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395.

b. Employees' Retirement System (ERS)

The New York State and Local Employees' Retirement System provides retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute, and benefits to employees are governed by the New York State Retirement and Social Security Law (NYRSSL). The system issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement System, Gov. Alfred E. Smith State Office Building, Albany, New York 12244.

3. Funding Policy

Plan members who joined the Systems before July 27, 1976 are not required to make contributions. Those joining after July 27, 1976 and prior to January 1, 2010, with less than ten years of service, are required to contribute 3% of their salary.

NOTE 9 – LIABILITIES (Continued)

Those joining the NYSERS on or after January 1, 2010 and before April 1, 2012, contribute 3% of their salary throughout their entire working career. Those joining after April 1, 2012 contribute 3% of their salary through March 31, 2013, and beginning April 1, 2013, contribute at rates ranging from 3% to 6%, dependent upon their salary, for their entire working career.

Those joining the NYSTRS on or after January 1, 2010 and before April 1, 2012 contribute 3.5% of their salary throughout their entire working career. Those joining on or after April 1, 2012 are required to contribute between 3% and 6%, dependent on their salary, for their entire working career.

For the NYSTRS, employers are required to contribute at an actuarially determined rate, currently 8.86% of the annually covered payroll for the fiscal year ended June 30, 2020. Rates applicable to the fiscal years ended June 30, 2019 and 2018, were 10.62% and 9.80%, respectively. For the NYSERS, the NYS Comptroller annually certifies the actuarially determined rates expressed used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31.

Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>ERS</u>	<u>TRS</u>
2020	\$ 313,041	\$ 1,367,653
2019	367,453	1,618,069

Bond Anticipation Notes

State law requires that BAN's issued for capital purpose be converted to long-term obligations within five years after the original issue date. However, BAN's issued for assessable improvements projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made. The District has the following BAN's outstanding as of June 30, 2020:

NOTE 10 – COMMITMENTS AND CONTINGENCIES

A. Risk Financing and Related Insurance

The Fallsburg Central School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; natural disasters, etc. These risks are covered by commercial insurance purchased from independent third parties.

B. Other Items

The School District has received grants that are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and request a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

NOTE 10 – COMMITMENTS AND CONTINGENCIES (Continued)

C. COVID - 19

In the early months of 2020, the COVID – 19 pandemic spread quickly around the world, causing significant shutdowns of economic activity. As a result, the District had to switch to remote learning and incurred unanticipated costs related to the conversion. Additionally, the District recognized some savings related to budgeted activity that was no longer needed. The ultimate cost of the shutdown and the effect, if any, on future tax levies and State and Federal funding sources cannot be determined at this time. However, the District has been notified by NYS that certain State Aid payments will be reduced by 20% beginning with fiscal year end 2020 receivables and into fiscal 2021. The State may eventually turn over this money to the District depending on whether they receive assistance from the federal government. Since the receipt of this money is based on future events that are not within the District's control, the withheld money has not been included in the District's fiscal 2020 revenues, and will be recognized if, and when, the revenues are actually received. For the year ended June 30, 2020, the District's revenues have been reduced as a result of the NYS withholding as follows:

<u>Revenue Source</u>	<u>Amount</u>
Excess Cost Aid	62,313
BOCES Aid	<u>162,967</u>
	<u>\$ 225,280</u>

- D. A Notice of Claim was submitted to the School District stating the District violated the contract with a vendor. The claim alleges that the School District is obligated to continue paying for services under the contract as if the vendor was continuing to provide services it had previously provided in the normal course of business even though the services were ceased due to an emergency order issued by the New York State Governor. The Notice of Claims seeks \$4.5 million in damages. The District is vigorously defending the claim.

NOTE 11 – POST EMPLOYMENT HEALTH INSURANCE BENEFITS

The District provides post-employment coverage to retired employees in accordance with the provisions of various employment contracts. The benefit levels, employee contributions and employer contributions are governed by the District's contractual agreements.

General Information about the OPEB Plan

Plan Description - The healthcare plan is a defined benefit OPEB plan that provides benefits for employees of the District who have reached certain levels of employment with the District. The plan is a pay as you go funding plan. The plan is a single-employer defined benefit OPEB plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

NOTE 11 – POST EMPLOYMENT HEALTH INSURANCE BENEFITS (Continued)

Benefits Provided – The District provides healthcare benefits for retirees, their dependents and surviving spouses. The benefit terms and contributions required by retirees vary based on the union contract that governs the employee, and years of service with the District. The District also reimburses the cost of Medicare Part B premiums to both retirees and covered spouses. The District will pay 100% of the coverage for most employees who retire with 20 years of service to the District. Other retiree contribution requirements vary from 25% to 65% for insurance coverage based on years of service, date of hire and bargaining unit.

Employees Covered by Benefit Terms – At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	158
Inactive employees entitled to but not yet receiving benefit payments	<u>239</u>
Active Employees	<u><u>397</u></u>

Total OPEB Liability

The District's total OPEB liability of \$135,118,344 was measured as of June 30, 2020, using an actuarial valuation as of June 30, 2018.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Measurement Date	June 30, 2020
Inflation	2.20%
Discount Rate	2.21%
Initial Healthcare Cost Trend Rate	5.50%
Ultimate Healthcare Cost Trend Rate	3.84%

The actuarial cost method used was Entry Age Normal.

The discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index.

NOTE 12 – PENSION REPORTING FOR ASSETS/LIABILITIES AND DEFERRED
OUTFLOWS/INFLOWS OF RESOURCES (Continued)

The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation.

The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

OUTFLOWS/INFLOWS OF RESOURCES (Continued)

District contributions subsequent to the measurement date of \$91,255 for ERS and \$1,367,653 for TRS will be recognized as a reduction of the net pension liability in the year June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>ERS</u>	<u>TRS</u>

 TOTAL	 <u>\$ 1,264,415</u>	 <u>\$ 2,914,507</u>

Actuarial Assumptions

The total pension liability as of the measurement date was measured by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The valuations used the following significant actuarial assumptions:

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2020	June 30, 2019
Actuarial valuation date	April 1, 2019	June 30, 2018

Salary scale	4.2%	1.90%-4.72%
Decrement tables	April 1, 2010-March 31, 2015 System's Experience	July 1, 2009-June 30, 2014 System's Experience
Inflation rate	2.5%	2.25%

For ERS, annuitant mortality rates are based on April 1, 2010-March 31, 2015 System's experience with adjustments for mortality improvements based on MP-2014. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010-March 31, 2015. For TRS, the actuarial assumptions used in the June 30, 2018 valuation are based on the results of an actuarial experience study for the period July 1, 2009-June 30, 2014.

NOTE 12 – PENSION REPORTING FOR ASSETS/LIABILITIES AND DEFERRED
OUTFLOWS/INFLOWS OF RESOURCES (Continued)

The long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

	<u>ERS</u> March 31, 2020	<u>TRS</u> June 30, 2019
Measurement date		
Asset Type:		
Domestic Equity	4.05%	6.3%
International Equity	6.15	7.8
Real Estate	4.95	4.6
Alternative Investments	2.0-3.0	-
Domestic fixed income securities	-	1.3
Global Bonds	-	0.9
Global Equities	-	7.2
Bonds and Mortgages	.75	-
Inflation – Indexed Bonds	.5	-
Private Equities	6.75	9.9
Private Debt	-	6.5
High Yield Fixed Income Securities	-	3.6
Real Estate Debt	-	2.9
Cash Equivalents	-	0.3

Discount Rate

The discount rate used to calculate the total pension liability was 6.80% for ERS and 7.10% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employees will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Accrued retirement contributions represent the projected employer contribution for the period of April 1 through June 30 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2020 amounted to \$91,255.

For TRS, employer and employee contributions for the fiscal year ended June 30 are paid to the System in September, October, and November through a state aid intercept. Accrued retirement contributions represent employee and employer contributions for the fiscal year ended June 30 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2020 amounted to \$1,526,108.

NOTE 13 – TAX ABATEMENTS

The District is subject to tax abatement agreements entered into by the County of Sullivan Industrial Development Agency pursuant to Title I of Article 18-A of the General Municipal Law of the State of New York. For the year ended June 30, 2020, the District received \$60,830 in tax abatement payments, which resulted in abated property taxes totaling \$23,853.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Education of the
Fallsburg Central School District
Fallsburg, New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Fallsburg Central School District, New York as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Fallsburg Central School District, New York's basic financial statements and have issued our report thereon dated October 13, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Fallsburg Central School District, New York's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fallsburg Central School District, New York's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fallsburg Central School District, New York's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fallsburg Central School District, New York's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education of the
Fallsburg Central School District
Fallsburg, New York

Report on Compliance for Each Major Federal Program

We have audited the Fallsburg Central School District, New York's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Fallsburg Central School District, New York's major federal programs for the year ended June 30, 2020. The Fallsburg Central School District, New York's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Fallsburg Central School District, New York's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Fallsburg Central School District, New York's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Fallsburg Central School District, New York's compliance with those requirements.

Opinion on Each Major Federal Program

In our opinion, the Fallsburg Central School District, New York complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Fallsburg Central School District, New York is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Fallsburg Central School District, New York's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Fallsburg Central School District, New York's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion of these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position – cash basis, of the Extraclassroom Activity Funds of the Fallsburg Central School District as of June 30, 2020, and the changes in financial position – cash basis, for the year then ended in accordance with the basis of accounting described in Note 2.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

FALLSBURG CENTRAL SCHOOL DISTRICT
HIGH SCHOOL EXTRACLASROOM ACTIVITY FUND
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - DESCRIPTION OF OPERATIONS

Student activity funds are defined by the New York State Education Department as “funds raised other than by taxation, or through charges of a Board of Education, for, by or in the name of a school, student body or any subdivision thereof.”

Activity funds are raised and expended by student bodies to promote the general welfare, education, and morale of all pupils, and to finance the normal, legitimate extracurricular activities of the student body organization.

The Superintendent of the District has responsibility and authority to implement all policies and rules pertaining to the supervision and administration of school activity funds in accordance with established policies and rules of the District’s Board of Education.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The books and records of the High School Extraclassroom Activity Fund of the Fallsburg Central School District are maintained on the cash basis of accounting. Consequently, receipts and related assets are recognized when received rather than when earned, and disbursements are recognized when paid rather than when the obligation is incurred.

Interest Income

Interest earned from the investment of the activity fund is distributed pro-rata to all activities having a cash balance.

Bank Charges

All bank service charges have been charged to the respective activity fund.

Inactive Accounts

The District’s policy is to transfer account balance of inactive clubs to the Student Council Fund.
